### *Your Student's Classes at a Glance:*

#### **Reading/Language Arts: Arnold**

We presented our Biography Fair Presentations Today in the cafeteria. The students did a great job. I have truly enjoyed teaching your student this school year. I hope you enjoy your summer, and I look forward to seeing you back at Heir Force in August.

#### **Math: May**

This week we will be finishing Chapter 3 in the 6<sup>th</sup> grade math book. Students are preparing for next year. We will be working on comparing, ordering, and estimating decimals. We will also review adding, subtracting, multiplying, and dividing decimals and metric measurements. Please make sure you are working with your child each night reviewing these concepts.

#### **Science: Griffo**

This week students are giving presentations about their Science portion of the biography fair projects. Students will talk about their findings and show their PowerPoint presentations to the rest of the class. Students will be graded based on their completed PowerPoint and their oral presentation.

#### **Social Studies: May**

This week we will be reviewing map skills and geography. We will use the Smart Board, internet, and various worksheets. I hope you have a great summer!

#### **Music: Bland**

What an awesome year. Have a great summer!

#### **Spanish: Hartman**

Wow! This year went by quickly. Students have done a great job on their family album and I have enjoyed reading and finding out about their families. There are some students who still need to turn in to get credit. Students will be finishing up any incomplete work and the rest of the time having fun with Spanish. Have a great summer!
